ABOUT ME

I am interested in taking up challenges and trying to come up with approaches that are sustainable and effective. I am always trying to criticize myself and look for improvements either internally and externally in order to become a better co-worker / human.

SKILLS

Front-End Development: HTML, CSS, JavaScript, Angular, Bootstrap, working with APIs and SDKs, Material Design, Git, Visual Studio, Firebase.

App Development: Android Studio, Java, Firebase, Material Design, working with APIs and SDKs.

Other: Adobe - Photoshop, Premiere Pro, Illustrator, Lightroom; Microsoft Office - Word, PowerPoint;

WORK EXPERIENCE

- FREELANCE DEVELOPER
November 2019 - Ongoing
 - Designed and developed android applications such as Parking Control App, Delivery Helper App, and much more.
 - Designed and developed Front-End applications such as Tbilisi Football Cup and Evolution Events websites.

EDUCATION

2019 / ACADEMY OF DIGITAL INDUSTRIES

Certificate of Achievement om Front-End Course

- Successfully finished Front-End course by Academy of Digital Industries.
- Learned languages, tools and techniques that are used to develop and maintain modern websites.

2020-2020 / INTERNATIONAL BACCALARUATE (IB)

iB Diploma (Higher Level Subject: Computer Science)

- Had an opportunity to study in the most difficult High School program with Higher-level Computer Science as one of the subjects. The subject enhanced my theoretical Computer Science knowledge while covering topics that included (but were not limited to): Genetic Algorithms, Abstract Data Structures, NP-complete problems, pseudocode, etc. It also helped me to use this theoretical knowledge in practical cases by having multiple projects and case studies for the students to work on using different chosen languages and tools.

INTERESTS

- Engaging in sports activities like playing Football and Tennis.
- Reading classical literature.
- Playing Intellectuall game What? Where? When?
